PRELIMINARY AMENDMENT

In response to the telephone conference with Examiner Davis on January 8, 2002, please amend the application as follows:

In the claims:

A
B
C

38. (Amended) A method of protecting a bone marrow cell in a subject treated with a chemotherapeutic agent or radiation from a toxicity caused by chemotherapy or irradiation, comprising administering to the subject a therapeutically effective amount of a peptide comprising at least 18 consecutive amino acids of SEQ ID NO:3, thereby stimulating proliferation of the bone marrow cell or the protecting the bone marrow cell from the toxicity caused by chemotherapy or irradiation.

REMARKS

Claim 38 is amended herein to correct form. Support for the amending language of claim 38 can be found throughout the specification, specifically on page 3-12, and page 37, lines 13 to page 38, line 7.
